

Thank you for your interest in applying to Australian National University's Bachelor of Medicine/Bachelor of Surgery (MBBS) Graduate Entry program.

While AustraLearn is a registered agent for ANU **we are not able to submit MBBS applications on behalf of international students**. ANU requires that all international students submit their applications in one of two ways:

1. Directly to the university – you will mail your application materials directly to the university Admissions Office. You can find application instructions on their website at <http://medicalschoo.anu.edu.au/admission/?IntCatId=3>.
2. Submit your application via ACER (www.gamsat.acer.edu.au)

Should you receive an offer from ANU you are then welcome to nominate AustraLearn as your agent and we can assist you through the pre-departure process.

Regards,
AustraLearn Degree Team
