

University of Sydney

Bachelor of Medicine/Bachelor of Surgery (Grad-Entry)

Apply Now

Sydney Medical School is Australia's oldest and largest medical school, undertaking teaching and research in health and medicine of international standing.

Sydney Medical School is part of the University's Faculties of Health, the largest and most comprehensive grouping of health and medical education and research in the Asia Pacific region.

The first medical school in the country, Sydney Medical School has an annual budget in excess of \$250M. The Medical School's activities, both in teaching and research - span the spectrum from the medical sciences through to clinical medicine, public health and medical education. A wide range of research units and centres is associated with the Medical School. Members of the Medical School make a major contribution to the health of the population through the delivery of clinical care in the teaching hospitals associated with the Medical School.

Through the Medical School's clinical schools more than 50 hospitals and numerous other health care delivery sites, including general practices throughout NSW and the Australian Capital Territory, have formal links with the Medical School and provide teaching facilities for students of its Medical Program and facilities for research. All this makes Sydney Medical School an outstanding environment in which to undertake study and research.

Unique Features

What differentiates the Sydney Medical School from other educational providers is the uniqueness of what we call 'the Sydney experience' – it is simply the quality and international reputation of teaching, research and our graduates combined with state-of-the-art facilities. You will be learning and researching with the best. As part of the most comprehensive cluster of health faculties in the southern hemisphere – which includes Dentistry, Health Sciences, Nursing and Midwifery, and Pharmacy – Sydney Medical School offers students valuable opportunities for inter-professional learning.

Sydney Medical School offers a world-class medical curriculum, the Medical Program. You will be learning from the best in a dynamic, clinically relevant environment. The program features:

- Integrated problem-based learning (PBL) approach
- Patient contact early in the program
- The latest information technology
- A focus on self-assessment skills development
- The opportunity to undertake research
