

MASTER OF PUBLIC HEALTH

The Master of Public Health provides the ability to apply a range of health theories to identify and plan for the health needs of the populations or specific risk groups. The program will also provide the ability to identify and assess social, behavioural and environmental determinants of health and illness for populations.

Streams available within the Master of Public Health program:

- Public health practice
- Research methodology
- Health promotion
- Health management
- Medical statistics

Core course areas

- Epidemiology
- Biostatistics
- Introduction to public health
- Social and ecosystem health

Location	On campus – Callaghan Online – GradSchool
Duration	Two semesters
Commencement	March, July
Admission criteria	A Bachelor degree in an approved health related discipline or other approved qualifications.

This program is brand new for 2009.
