

BOND UNIVERSITY

BACHELOR OF ARCHITECTURAL STUDIES

BACHELOR OF ARCHITECTURAL STUDIES

INDUSTRY OVERVIEW

A degree in Architectural Studies can see you shaping the buildings and spaces that make cities the best places to be. Architecture is leading the best designs and is not just about great landmarks; it is about problem solving in the built environment. Our cities and towns harm the planet and also account for 80 per cent of greenhouse gas emissions. This degree not only focuses on the theory and practice of Architecture, but also environmental considerations.

Duration: 2 years full-time (6 semesters)

Starting: January

ENTRY REQUIREMENTS

Successful completion of Year 12 or equivalent, or Bond College certificate; all candidates will be interviewed prior to acceptance into the program and all candidates will be asked to provide evidence of their creativity and interest in design and architecture.

PROGRAM DESCRIPTION

The Architectural Studies degree is focused on inspirational learning and teaching environments to equip graduates with the theory, the practical skills and strategic thinking to create sustainable and culturally relevant solutions to our environmental challenges.

As a student you will need to be passionate, imaginative and hone your problem solving skills to succeed in this field. Study areas within the discipline of architecture include design studies, history and theory of architecture, design communication and city culture and environment.

PROGRAM STRUCTURE - 24 SUBJECTS

One subject from each of the following categories:

University Core Subjects (4)

- Communication Skills
- Knowledge and Critical Thinking
- Leadership, Initiative and Teamwork
- Responsibility

Architectural Studies Subjects (10)

- Architectural Design Studio 1
- Architectural Design Studio 2
- Architectural Design Studio 3
- Architectural Design Studio 4
- Architectural Design Studio 5
- City, Culture and Environment
- Design Communications 1
- Design Communications 2
- History and Theory of Architecture 1
- History and Theory of Architecture 2

Cross-disciplinary Subjects (10)

- Commercial Construction
- Economics of Sustainable Development
- Introducing Urban Design
- Managing Projects
- Planning Processes
- Structural Engineering
- Sustainable Building Services
- Sustainable Development and Society
- Understanding Buildings
- Capstone Project (Joint Design Studio Project)

PROFESSIONAL OUTCOMES

A career in architecture is not limited to the creation of buildings and structures. The best architects have the skill to integrate both the art and elements of construction with the visual, tactile and other experiential qualities of space and place. Career opportunities are available in private architectural practices, government, construction, infrastructure and development organisations.

PROFESSIONAL RECOGNITION

Bond University is seeking recognition and accreditation of the professional degree from the Architects Accreditation Council of Australia (AACA). Students who complete the Master of Architecture*, plus two years of practical architectural experience may be eligible to undertake the Architectural Practice Examination for registration with the Board of Architects of Queensland. For further information on accreditation, please contact the Institute of Sustainable Development & Architecture.

* Master of Architecture program commences in 2013.
