MASTER OF ASSET AND FACILITIES MANAGEMENT

MASTER OF ASSET AND FACILITIES MANAGEMENT

INDUSTRY OVERVIEW

Asset and facilities management is an important professional discipline charged with the effective stewardship of physical infrastructure with a particular emphasis on delivering value for money and strategic portfolio investment advice. It is relevant to a broad range of people holding different discipline knowledge and is applicable equally to national and international contexts. Issues of sustainability, productivity and information management are at the leading edge of the discipline.

Duration: Minimum 3 semesters full-time (intensive mode delivery), flexible part-time also available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute's Director.

PROGRAM DESCRIPTION

The Master of Asset and Facilities Management program provides an in-depth look into the asset and facilities management profession. The program covers a number of key areas associated with strategic property management, refurbishment, operational management, financial planning and dispute resolution related to facilities portfolios, and also enables participation in the cross-disciplinary related project.

There is an emphasis on the impact of the built and natural environment, and the role of the facilities manager on the pursuit of sustainable development.

PROGRAM STRUCTURE - 12 SUBJECTS

This program allows students to exit after one semester (4 subjects) with a Graduate Certificate, after two semesters (8 subjects) with a Postgraduate Diploma, or complete all three semesters (12 subjects) for a Master's degree.

Graduate Certificate in Asset and Facilities Management (4)

- Advanced Asset Management
- Asset and Facilities Management **OR**
- Sustainable Construction
- Corporate Real Estate* **OR**
- Sustainable Building Services
- Strategic Facilities Management

*Subject to Institute approval

Postgraduate Diploma in Asset and Facilities Management (8)

In addition to the subjects listed for the Graduate Certificate, students must complete the following:

- Building Pathology and Forensic Engineering
- Expert Witness and Dispute Resolution
- Sustainable Refurbishment and Retrofit
- Integrated Project

Master of Asset and Facilities Management (12)

In addition to the subjects listed for the Graduate Certificate and Postgraduate Diploma, students must complete four elective subjects. Students may complete any four postgraduate subjects offered by the Institute of Sustainable Development & Architecture.

PROFESSIONAL OUTCOMES

A Master of Asset and Facilities Management provides students with the necessary knowledge and understanding to seek employment as a professional asset / facilities manager. You will be qualified to work in sectors such as property maintenance, infrastructure development, facilities planning, corporate real estate, local council works or tourism and hospitality. You will be introduced to industry standard software and contemporary research findings. There are strong employment prospects for qualified asset / facilities managers both in Australia and overseas and salaries are potentially high.

PROFESSIONAL RECOGNITION

Bond University is seeking accreditation with the Royal Institution of Chartered Surveyors (RICS), enabling graduates to become a chartered facilities manager subject to a two-year assessment of professional competence. For further information on accreditation, please contact the Institute of Sustainable Development & Architecture.
